

src/default\_configuration.cpp

```
graph TD; A[src/default_configuration.cpp] --> B[ci_example_cpp/default_configuration.hpp]; B --> C[ci_example_cpp/gains_configuration.hpp]; C --> D[string]; C --> E[iostream];
```

The diagram is a vertical flowchart with five rectangular boxes. The top box is shaded gray and contains the text 'src/default\_configuration.cpp'. A blue arrow points down from this box to a white box containing 'ci\_example\_cpp/default\_configuration.hpp'. Another blue arrow points down from this second box to a third white box containing 'ci\_example\_cpp/gains\_configuration.hpp'. From the bottom of the third box, two blue arrows branch out diagonally to two separate white boxes at the bottom: 'string' on the left and 'iostream' on the right.
