

ci\_example\_cpp::Gains  
\_configuration

```
graph BT; A[ci_example_cpp::DefaultConfiguration] --> B[ci_example_cpp::Gains_configuration]
```

The diagram illustrates an inheritance relationship between two C++ classes. At the bottom is a box for 'ci\_example\_cpp::DefaultConfiguration', which is shaded gray. A blue arrow points vertically upwards from this box to a white box at the top labeled 'ci\_example\_cpp::Gains\_configuration'. This indicates that 'Gains\_configuration' inherits from 'DefaultConfiguration'.

ci\_example\_cpp::DefaultConfiguration
