

std::exception

```
classDiagram
    class std_exception["std::exception"]
    class dynamic_graph_exception_abstract["dynamic_graph::Exception Abstract"]
    dynamic_graph_exception_abstract --|> std_exception
```

A UML class diagram illustrating inheritance. At the bottom is a gray-shaded box labeled "dynamic\_graph::Exception Abstract". A blue arrow points upwards from this box to a white box at the top labeled "std::exception".
