

include/dynamic_graph
_manager/exception/exception
-yaml-cpp.hpp

```
graph BT; A[src/dynamic_graph_manager.cpp] --> C[include/dynamic_graph_manager/exception/exception-yaml-cpp.hpp]; B[src/exception/exception-yaml-cpp.cpp] --> C;
```

The diagram illustrates a file dependency structure. At the top is a gray rectangular box containing the header file path: `include/dynamic_graph_manager/exception/exception-yaml-cpp.hpp`. Below this box are two white rectangular boxes. The box on the left contains the source file path `src/dynamic_graph_manager.cpp`, and the box on the right contains `src/exception/exception-yaml-cpp.cpp`. Two blue arrows point from the bottom of each source file box up to the header file box, indicating that both source files include the header.

src/dynamic_graph_manager.cpp

src/exception/exception
-yaml-cpp.cpp
